

Smoke Detector Addendum

All of the smoke detectors installed at _____ apartment _____ are operable at the time of move-in and are located for your safety in the following locations:

- 1) _____
- 2) _____
- 3) _____
- 4) _____
- 5) _____

You as the tenant agree that these smoke detectors are operable. In order to keep them operational, from time to time you must maintain these smoke detectors by replacing the batteries on an as needed basis, unless they are wired into the electrical circuitry. All fresh batteries are your responsibility. Each unit should be tested on a monthly basis. If you have any questions or problems with any smoke detector after you have checked the battery, it is your responsibility to promptly notify the landlord or property manager to assure the early detection of fire or smoke offered by these devices. Your cooperation is essential.

I, the resident, agree to the above as stated.
